

Control Configurator FM to be integrated in FPWIN Pro for Fieldbus Master FP0H, FP2 and FP-Sigma

Information you need to know before using the software (Essential reading)

Files and installation

File structure:

For Installation start "SetupControlConfiguratorFM1.15.exe".

Installation code(License): AFPS35510-D-1000071

Caution

Panasonic uses two different Fieldbus Master configurators:

1. this Control Configurator FM for FMU of FP0H, FP2 and FP-Sigma for integration in FPWIN Pro
2. Control Configurator FM for FMU of FP7 standalone Windows software

Both Control Configurator FM can't run at the same time.

Every Control Configurator FM must be installed exclusively.
